TECHNICAL SKILLS

Languages: Java, C/C++, Python, Go

Web: HTML, CSS

Tools & Technologies: SQL, Docker, PostgreSQL, Apache Kafka, Web3.js, Solidity, Ganache, Truffle

EXPERIENCE

Data Engineer Intern

Apr 2025 – Present

Amasqis.ai — Remote

- Integrated GIS solutions into real estate and finance web applications, improving geospatial visualization and analytics.
- Designed and deployed scalable backend APIs in Go for high-performance data processing.

PROJECTS

HarvestChain: Blockchain-Based Marketplace for Farmers

- Developed a decentralized marketplace enabling secure and transparent farmer-to-buyer transactions.
- Designed Solidity smart contracts and integrated them with a web interface using Web3.js.
- Deployed and tested on Ganache using the Truffle framework.

Itami-Hypertrophy: Gym & Calorie Tracker App (Ongoing)

- Building a full-stack fitness tracker to log workouts, calories, and progress trends.
- Designed REST APIs in Go for food logging and exercise tracking; ensured secure data handling with PostgreSQL.
- Implementing modular backend architecture to support future AI-driven diet and workout insights.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 AI Foundations Associate
- Oracle Cloud Infrastructure 2025 Architect Associate

ACHIEVEMENTS

- 6th Place — Sol-VIT Hackathon (Business Optimization Challenge)
- LeetCode Contest Rating: 1750

LEADERSHIP & CLUBS

- Operational Lead — Bashcraft Club (Oct 2024 – Present)
- Operational Lead — AWS Cloud Club (Jun 2024 – Oct 2024)

EDUCATION

VIT Bhopal University

Sept 2023 – Present

B.Tech in Computer Science and Engineering

CGPA: 8.5 (4th Semester)
